

Sound Testing

Colorado Law

-25-12-110

Snowmobiles

-**SAE J2567** is the procedure used to measure sound levels of stationary snowmobile exhaust systems in Colorado.

No **snowmobile** operated in the state shall emit more than the following levels:

-Manufactured on or after 7/1/1972 and before 7/2/1975.....**90db(a)**

-Manufactured on or after 7/2/1975.....**88db(a)**

-No new snowmobile can be sold that does not meet state sound levels unless it meets federal noise emission.

Definition

"Snowmobile" means a self-propelled vehicle primarily designed or altered for travel on snow or ice when supported in part by skis, belts, or cleats and designed primarily for use off the public highways.

"Snowmobile" shall not include machinery used strictly for the grooming of snowmobile trails or ski slopes.
